

# Ress Family Hospital Performance Project

At the Lennar Foundation Medical Center, we promise to engage the community in our health initiative. To that end, we are partnering with the **Ress Family Hospital Performance Project** through the Frost School of Music. This unique project places student musicians in medical settings to provide a positive influence for patients, families, and staff.

Please join us on **Sunday, December 10th at 1:00pm** for this free one hour community performance, which will take place in the main lobby of our facility, located at 5555 Ponce de Leon Blvd, Coral Gables, FL 33146 (see below for parking options).

This special Ress Family Hospital Performance will feature the following outstanding student musicians from the Frost School:

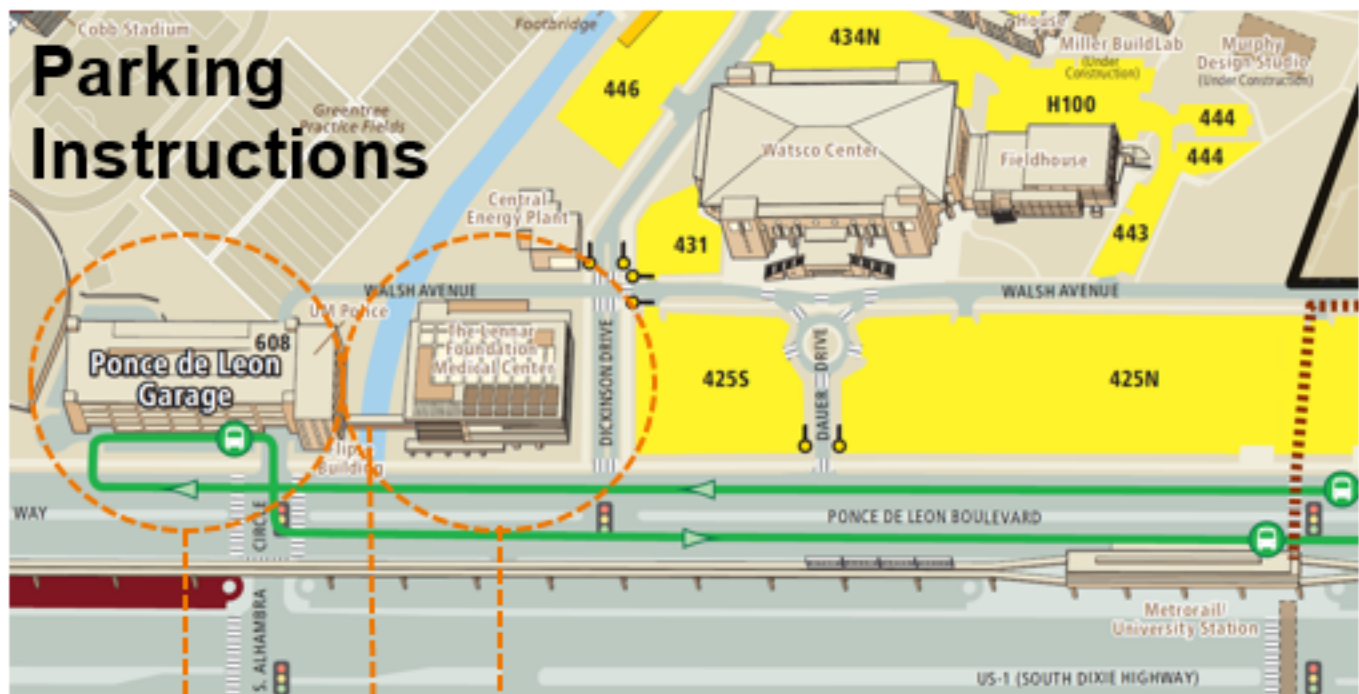

- Jennifer Su, piano, junior in the Music Therapy program
- Jessica Hamorsky, voice, junior in the Vocal Performance program
- Miclen LaiPang, 1714 Andrea Guarneri Violin, Artist Diploma in Instrumental Performance
