

## How to apply for a parking permit:

You may apply for your 2023-24 parking permit by following the instructions below:

- Click the button below (or visit the [Parking & Transportation](#) homepage and then click the "Access Your Parking Account" image). On the parking portal, click "Login" at the top-right hand corner to login with your UM Single Sign-On username and password.

## Please note the following when reviewing your parking account:

- Use the *next* or *previous* buttons during the process. Do not use the back arrow (←) on the task bar. Do not close the webpage using the red X button during the process; this will lock you out of the system and you won't be allowed to complete your transaction.
- Your vehicle information may already be stored in the system. You can check this information at any time under the "Vehicles" link at the top-left corner. If this is your first time applying for a parking permit, or if your vehicle information has changed, you will need to know the make, model, year, color, and license plate number for the vehicle you are registering.
- Only available zones will show up on your selection. Take your time in selecting the correct zone. Once you have selected a zone and completed the transaction, you will not be able to change your permit. If your first choice is sold out, please purchase an alternative, second choice location.
