

## **Graduate Teaching Assistantship**

### **Job Description**

The Office of Graduate Studies and the Office of Academic Enhancement at the University of Miami Miller School of Medicine are seeking to hire a Graduate Teaching Assistant at the PhD level to work in the area of applied learning sciences on the medical campus. This paid position would require a 10-month commitment (June through March of the academic year), 20 hours per week, and would be renewable based on performance.

Responsibilities would include, but not be limited to:

- Data collection and analysis
- Writing for publication
- Workshop development and implementation
- One-on-one academic coaching for graduate students
- Instructional materials development
- Grading student assignments
- Working with community partners to provide professional development seminars for teachers and tutors/ youth mentors in the science of learning.

In addition to experience in both qualitative and quantitative research methods, an ideal/ competitive candidate would be a full-time masters or PhD student majoring in the applied learning sciences or a STEM discipline with above-average academic performance, and outstanding writing skills.

### **Compensation**

\$11,000 stipend (paid monthly over 10 months)

### **How to Apply**

To apply for this position, please submit your CV and cover letter to Dr. Adrian Reynolds at [a.reynolds1@miami.edu](mailto:a.reynolds1@miami.edu).
